REAP Planning Questionaire

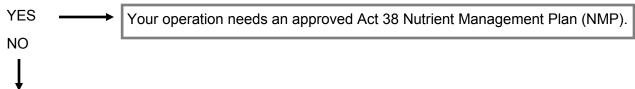

must be completed with all REAP applications for Nutrient Management Plans and/or Manure Management Plans

"My operation generates or utilizes manure. What type of manure plan do I need?"

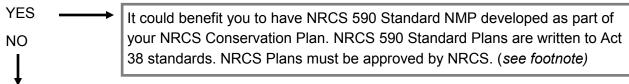

1. Is your operation a CAO or CAFO?

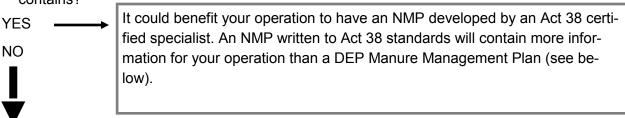

2. Are you interested in participating in Act 38 as a volunteer (VAO)? VAOs can benefit from the limited legal protections provided by an approved Act 38 NMP.

3. Are you interested in applying for funding from USDA/NRCS to help install ag BMPs?

4. Are you interested in the additional crop-year-specific agronomic information that an NMP contains?

A PA DEP Chapter 91 Manure Management Plan (MMP) will meet your needs.

Types of operations best-served by an MMP:

- 1. Operations with few animals
- 2. grazing-intensive operations
- 3. Operations with large acreage available for manure spreading

Footnote: NMPs that do not go through the Act 38 approval process (see questions 3 and 4) do not confer any of the limited legal protections provided by Act 38.

Please answer "yes" or "no" in the checkboxes regarding "TMDL?" if you are applying for REAP tax credits for one of the BMPs listed above.

Please answer "90%" in the "REAP Rate" column if your operation is located in an ag impaired TMDL watershed AND the BMP you are applying for is listed above.

For all BMPs not listed in the TMDL section above, the "REAP Rate" column is completed according to your answers in the preceding checkboxes. You will enter 75% if you answered "yes" to the "ACA?" question. You will enter 50% if you answered "No" to the "ACA?" question. Please note: Manure Storages are not considered ACA treatments.

For proposed projects, please provide an estimate of when the project is scheduled to be complete (or the equipment delivered). An estimated date of completion is not necessary if the project is complete and the application includes all receipts and appropriate engineer certifications.
