

Lebanon County Manure Injection Incentive Program Guidelines

Program Overview: The Lebanon County Conservation District (LCCD) recognizes the importance of utilizing manure nutrients efficiently and effectively while decreasing soil and nutrient contamination in local waterways. The manure injection incentive program is intended to incentivize agricultural operators interested in trying manure injection at a lower cost.

Compensation:

- Compensation amount will be determined based on number of years participating in the program:
 - o Year 1: \$40 per acre per season (Maximum \$80 per acre per year)
 - o Year 2: \$30 per acre per season (Maximum \$60 per acre per year)
 - o Year 3: \$20 per acre per season (Maximum \$40 per acre per year)
- Payment will be distributed to applicant after verification is completed

Limitations:

- Must be injected on the same acres in spring and fall (if applicable)
- Maximum of 200 acres per operation

Requirements:

- Manure must be injected between March 1, 2024 to December 14, 2024
- Hire pre-approved custom applicator
- Submit applicable plans: Conservation Plan or Ag E&S Plan and/or Manure Management Plan or Nutrient Management Plan
- Manure Management Plan or Nutrient Management Plan must be updated to include the allowable application rate for injection, not to exceed the crop nitrogen requirement
- Submit invoices to LCCD to verify acreage
- Submit W-9 to LCCD prior to payment

Applications:

- Limited funding allocated on a first-come, first-serve basis with priority given to applicants who have not injected manure in the past.
- Submit completed application:
 - o Mail: Lebanon County Conservation District **OR** Email: klarissa.long@lccd.org
Attn: Klarissa Long
2120 Cornwall Road, Suite 5
Lebanon, PA 17042

By signing below, I have read, understand and agree to the guidelines stated above.

Applicant Name: _____

Applicant Signature: _____

Lebanon County Manure Injection Incentive Program 2024 Application

APPLICANT INFORMATION

Applicant Name: _____ Date: _____

Mailing Address: _____

Telephone: _____ Email: _____

OPERATION INFORMATION

Type of Operation: _____

Total Managed Acres (Owned & Rented): _____

Total Acres of Manure Injection: _____ (Maximum of 200 acres)

Anticipated Season(s) of Manure Injection: Spring 2024 Fall 2024

Anticipated Custom Applicator: _____

Do you currently use manure injection? Yes No

If Yes, how many acres have been injected in previous years? _____

Select the existing plans the operation has on file*:

Conservation Plan **OR** Ag E&S Plan

Manure Management Plan** **OR** Nutrient Management Plan** **OR** Nutrient Balance Sheets**

**An operation is required to have applicable plans developed for the injected acres*

*** Applicable plan must be updated to include the allowable application rate for injection, not to exceed the crop nitrogen requirement.*
